

Tablet Hardness Tester LB-10THT

Tablet hardness tester LB-10THT is a bench top dual plate unit with continual tablet breakage at a particular pressure LED screen displays the test data with automated storage. Data is permanently locked and preserved preventing unwanted user access.

- Automatic operation
- High accuracy pressure sensor
- Testing mode - Continual
- Alarm system indicating fault diagnosis

Specifications :

Hardness range	2 N □ 199.9 N
Probe moving distance	20 mm
Hardness accuracy (Maximum)	±0.05 %
Power	10 W
Power supply	110 V/ 60 Hz 220 V/ 50 Hz
Dimensions	420 × 300 × 230 mm
Weight	6 kgs

Used in pharmaceutical industries to the test breaking point and structural integrity of a tablet prior to storage, transportation and usage.
