

Tablet Hardness Tester LB-20THT

Tablet hardness tester LB-20THT is a bench top dual plate unit with continual tablet breakage at a particular pressure. It performs continual auto testing of samples followed by diagnosis. Displays preset and real time data simultaneously on LED screen.

Used in pharmaceutical industries to the test breaking point and structural integrity transportation and usage.

- Manual tablet loading
- High accuracy pressure sensor
- Biggest number is 100 pieces of a gang
- Alarm system detect diagnostic fault
- Built in printer

Used in pharmaceutical industries to the test breaking point and structural integrity of a tablet prior to storage, transportation and usage.

Specifications :

Hardness range	2 N □ 199.9 N
Probe moving distance	3 mm □ 40 mm
Test period	>20 S/P
Hardness accuracy (Maximum)	±0.05 %
Power	60 W
Printer	Hardness of each tablet Number of tablet
Power supply	110 V/ 60 Hz 220 V/ 50 Hz
Dimensions	600 × 350 × 250 mm
Weight	12 kgs
