

Technical Refractometer PCE-DRS 2

PCE-DRS 2 Handheld Digital Refractometer

IP65-rated salinity or salt content (‰) / chloride content (‰) / specific gravity (SG) / refractive index (nD) refractometer with easy-to-read LCD

PCE-DRS 2 is a handheld digital refractometer used to determine the salinity or salt content (‰), chloride content (‰), specific gravity (SG) and refractive index (nD) of liquid. This IP65-rated digital refractometer features automatic temperature compensation (ATC) from +10 ... +40 °C / +50 ... +104 °F, as well as a large, easy-to-read LCD that shows both the measured value and the temperature.

- Automatic temperature compensation (ATC) from +10 ... +40 °C / +50 ... +104 °F
- Handheld and portable
- User-friendly 3-button operation
- Fast and precise measuring results in approx. 1 sec.
- ABS plastic housing with IP65 ingress protection rating against water and dust
- Large, easy-to-read digital LCD shows both the measured value and the temperature
- Average function measures same sample 15 times and displays the mean value
- Stainless-steel ring on sample well protects glass prism from damage
- Internal light source for improved accuracy
- Small liquid sample size of just 4 to 5 drops
- Easy calibration with distilled water
- Battery-saving automatic power off after 1 min. of inactivity
